This tenth edition follows the disturbing trend of violence perpetrated on behalf of religion, making distinctions between the basic teachings of religions, no one which condones wanton violence, and the ways in which religions have been politicized. Every religion is struggling with its responses to modernity, including fundamentalist and exclusivist reactions to increasing pluralism within our societies, and these struggles are discussed in each chapter.The tenth edition includes new and updated coverage of how religions intersect with contemporary environmental and societal issues. The authors provide material on religious approaches to contemporary ecological concerns, such as contamination from oil extraction that has devastated coastal areas in Nigeria and ominous signs of climate change everywhere. The tenth edition also covers many other social issues that are being taken up by religious leaders, such as LGBT acceptance, structural injustice, corruption, HIV/AIDS, and female infanticide.The tenth edition includes expanded coverage of women, with womeneÁÁAs voices and contributions woven into the discussion of each religion. Though gains have been made recently, obstacles to womeneÁÁAs expression of their spirituality still exist, however, and are discussed within the context of the various religious traditions. A variety of pedagogical features boosts student success Learning objectives at the start of each chapter are designed to help students focus on key topics. To reinforce learning, these objectives appear as questions under section headings, and brief summaries of the main points are also included at the end of each chapter. UPDATED!
